

# OVERSEAS TRAVEL

**Overseas immunizations are given by appointment only. For more information or to schedule an appointment, please call (405) 419-4090.**

OCCHD along with their partners at the Infectious Diseases Section of the Oklahoma University Health Sciences Center provide education, immunizations and other medications for overseas travel clients. Please note that any individual under the age of 17 must present with a physician order clearing the child to receive the needed overseas vaccine for travel. In addition, there is a nursing assessment fee of \$40 for the visit.

It is important to bring updated vaccination records for each traveler and arrive 30 minutes early for your appointment.

Prior to your appointment, please visit [www.travelmdus.org](http://www.travelmdus.org) to fill out the health questionnaire *required* for this visit. Scroll down the list of clinics and click on *University of Oklahoma Health Sciences Center* to begin the questionnaire. Once this questionnaire is completed, please *print a copy and bring it to your visit*, as it has a confirmation number on it that your provider will need in order to access your paperwork during your clinic visit.

Immunizations may be required for travel outside the United States. For information on what immunizations may be required for your destination(s), visit the CDC's Traveler's Health website at [wwwnc.cdc.gov/travel](http://wwwnc.cdc.gov/travel) or the Global TravEpiNet Travelers' Rapid Health Information Portal at [gten.travel/trhip/trhip](http://gten.travel/trhip/trhip). Please note that requirements and recommendations may vary depending upon each traveler's vaccination history and specific location of visit, so talk with your provider during your clinic visit. For a list of vaccine prices, please click here [www.occhd.org/immunizations/prices](http://www.occhd.org/immunizations/prices).

For more questions regarding overseas travel, please see [wwwnc.cdc.gov/travel](http://wwwnc.cdc.gov/travel)
